Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

In response to the amendment filed on 5/9/2006, all the amendments to the claims have been entered and the action follows:

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 16-17 and 34-35 are rejected under 35 U.S.C. 102(e) as being anticipated by Dawson et al (US 5179638).

With respect to claim 16, Dawson discloses a system that includes a analyzer configured to analyze received code data to generate image data, received data sufficient for defining the image data, a generator configured to generate additional data and a synthesizer configured to synthesize additional data with image data to output the synthesized image data wherein the additional data is encoded within the image data, (see figure 5, 30, 34 and 40 and col. 7, lines 55 till the end of the col., wherein the texture engine is read as the generator the generates the texture data read as the additional data, tiling engine is read as the analyzer that generates the polygon "image data" using the elevation read as the "received data", and finally the rendering engine

read as the “synthesizer” that combines the two in order to get the “synthesize image data”) as claimed.

With respect to claim 17, Dawson further discloses the coordinate information, (see col. 7, lines 59-60, the triangles are read as the “coordinate information”) as claimed.

Claims 34-35 are rejected for the same reasons as set forth in the rejections of the claims 16-17, because claims 34-35 are claiming a method for the apparatus claimed in claims 16-17.

Allowable Subject Matter

3. Claims 18 and 36 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

4. Applicant's arguments with respect to claims 16-17 and 34-35 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 2624

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
